

## Introducing the new BDX-20 and BDX-30

### Moisture Meters for Building Trades and Water Damage Restoration

**Towaco, NJ:** Delmhorst Instrument Co. introduces two new pin-type moisture meters, the BDX-20 and BDX-30, as the initial products in the launch of the firm's Navigator™ series.

Delmhorst's moisture meters have been used in the building trades, restoration, and inspection applications for 75 years. All products are designed and assembled in their Towaco facility.

In order to ensure their meters are of the highest quality, Delmhorst's engineering team performed human factors reviews and extensive usability testing. Both the BDX-20 and BDX-30 provide new benefits to users including an ergonomic, premium feel, and intuitive interface and display.

For maximum convenience and flexibility, BDX-30 users have access to the **Delmhorst EDGE™** app which allows them to adjust meter settings and share data from anywhere. The app is available for your smartphone or tablet through <https://www.apple.com/app-store> and <https://play.google.com>.

Listed below are a few features of the BDX-20 and BDX-30:

- Custom display with auto backlight, making it easy to read in all light conditions
- On-screen statistics
- Wood temperature correction (°C and °F)
- Color-coded LEDs
- Bluetooth® connectivity (BDX-30)

The **EDGE™** app available with the BDX-30 offers:

- Timestamp and geotag
- Data export to .csv format
- Save unlimited readings
- Customized LED ranges
- Multi-language
